

### HOW TO: Fix errors when importing a Fannie 3.2 file

Due to recent changes to HMDA information in 2018, many Lending Operating Systems' [LOS] software updates are causing conflicts in the formatting of the Fannie 3.2 files. Because of this, users are receiving errors when uploading to TPO Connect.

Follow the steps below to update the 3.2 file and import your loan successfully to TPO Connect.

# Here are Examples of the Error Messages you may receive when there is a error related to the HMDA Data.

**An error occurred:** Bad Request – Index and length must refer to a location within the string. Parameter name: length

#### Unable to Import FNM Loan File.

×	Blank Allo	Restore previous versions	
	77-builder -	Send to >	
-	Loan Scer	Сору	
	Loan Scer	Create shortcut	
-	jkhklpdf.p	Open file location	
<b>735</b> 2.	Bulletin_1	Properties	

b. If you cannot select Notepad to open the file, choose "More Apps".

c. Select the Notepad application and click "OK".

#### The Fannie 3.2 data will appear Notepad application.

Step 3:Search for the following [using "Ctrl - F"]: ADSADS, which will take you to theHMDA section of the Fannie 3.2 data.

#### Step 4:

Look for duplicate entries and blank entries.

In the example below, the designation for "Application Taken By" is showing twice. First with the correct information; the other instance with a blank entry.
